

AgosiRefining

At Agosi, your material is in good hands

Our recycling management returns your scrap material to the cycle of your precious metals.

We process the material for you cost-effectively using state-of-the-art processes. You receive the value in the form you prefer: as fine metal or semi-finished products, as credit on your precious metals weight account, or as the equivalent in cash transferred to your bank account. Agosi thereby completes the cycle with a fully comprehensive service package: we offer all services for the entire cycle of precious metals - a reliable single source.

Agosi AG is part of Umicore, Brussels, a global materials technology group. It focuses on application areas where its expertise in materials science, chemistry and metallurgy makes a real difference. Umicore's overriding goal of sustainable value creation is based on an ambition to develop, produce and recycle materials in a way that fulfills its mission: materials for a better life. Its social commitment and innovative environmental approach have earned Umicore worldwide recognition; the corporation is among „World's Most Ethical Companies“ (Ethisphere 2012). www.umicore.com

With its subsidiaries in Austria and Thailand, North- and South America, Agosi represents the core of the Umicore Business Unit Jewelry & Industrial Metals. It provides a closed-loop concept of precious metals services, products and refining for the precious metals consuming industries. Its Pforzheim site is RJC-CoC certified and can offer responsibly produced CoC-products. Agosi is also accredited according to the Responsible Gold and Responsible Silver Guidance by the London Bullion Market Association (LBMA). Certificates are available online www.agosi.de

Anodes | Gold and Silver Salts

We make your products more precious

AgosiAnodes feature a particularly fine and uniform grain structure and a high degree of purity. The range of sizes meets all recognised international requirements for modern, cost-effective and high-quality surface finishing. AgosiGold and Silver Salts are also characterised by their consistent high quality and have enjoyed market success for many years.

Materials: Ag ≥ 99.99 % Au ≥ 99.97 %			
Delivery forms	Dimensions	Special features	Delivery time
Granules	as standard 2.5 - 4 mm according to customer specification	unscreened screened screened	from stock from stock approx. 5 days
Flat anodes	max. approx. 360 x 1000 mm, thickness approx. 2 - 10 mm	Drill holes acc. to customer specification are possible	approx. 5 working days or as per agreement
Dog bone anodes type A	76 mm wide edge bead 15 mm plate thickness 10 mm	available in lengths up to 1000 mm	approx. 3 working days or as per agreement
Dog bone anodes type C	76 mm wide edge bead 9.5 mm plate thickness 6 mm	available in lengths up to 1000 mm	approx. 3 working days or as per agreement
Wire clippings	Ø 11 x 10 mm Ø 11 x 20 mm		from stock

Salts

Products	Package sizes	Precious metal content	Delivery time
Umicore Potassium gold cyanide 68.2%	100.00 g 146.63 g 500.00 g 1,466.28 g	68.2 g Au 100 g Au 341 g Au 1,000 g Au	from stock
Umicore Potassium silver cyanide 54%	10 x 1 kg 2 x 10 kg	5.400 g Ag 10.800 g Ag	from stock
Umicore Silver cyanide 80,5%	1 kg 2 x 10 kg	805 g Ag 16.100 g Ag	from stock

AgosiInvestmentProducts

Fine gold and fine silver bars, customer-specific

As an LBMA accredited manufacturer, we can produce investment bars with your company logo and can supply the bars with the appropriate certificates, the "Agosi" stamp and with packaging if requested. The bars are on offer in all common sizes – gold bars from 1 g to 400 oz, silver bars from 10 g to 1000 oz, platinum bars 50 g to 1000 g and palladium bars from 10 g to 1000 g. We would be happy to discuss your individual requirements regarding shapes and weights with you.

Additionally, Agosi base metal bars are a decorative gift or collectors' item for all those interested in the variety of metals: brass, bronze, copper, aluminium or titanium – all available in bars of 1,000 grs each.

AgosiPreciousMetalsServices

Worldwide connections

Our metal trading department is connected online with the most important international marketplaces to ensure an optimum supply of fine metals.

Our experienced team takes good care of every purchasing and sales order reliably and in a timely manner. We organise bank transfer payments and arrange for precious metals to be delivered to a recipient of your choice. Hedging instruments such as futures and forward contracts are also part of the services we offer.

Certified Precious Metals

In the field of precious metals, Agosi plays an important role as a closed-loop refinery, manufacturer of semi-finished products and supplier of raw materials for gold, silver, platinum and palladium. Based on RJC certified Chain of Custody Standards for Gold and PGMs, Agosi is the first German precious metals company to offer a conflict-free delivery and production chain spanning raw materials to CoC fine metals or CoC semi-finished products. Agosi fulfils the requirements laid down by the Responsible Jewellery Council, the Conflict-Free Smelters List (EICC) and also the criteria of the Gold Guidance of the London Bullion Market Association (LBMA). In addition to that, Agosi is accredited according to LBMA Responsible Silver standards.
